

Our family has been coming to Drs. Kokai and Jeduska for over 10 years. We trust them implicitly! We're always sure we're getting the very best treatment because they keep up-to-date on everything. My kids have never feared the dentist because the atmosphere here is so relaxed and friendly. I had a root canal last year, and while I can't say it was exactly "fun," it was nowhere near the horrible experience I'd dreaded. Dr. Kokai really knows his stuff, and he expressed concern for my comfort throughout the entire procedure. I really appreciated that! When it came time for my kids' orthodontics we never even considered going anywhere else. Dr. Jeduska has an excellent orthodontics program, and our daughter now has a beautiful smile. We're just starting our second daughter's ortho treatment, and we're confident that we'll get the same great results. The bottom line is that Drs. Kokai and Jeduska really do care about my family's dental health. I'd highly recommend them to anyone!

My husband and myself have been patients  
of Dr. John & Linda since they and us were in our  
early twenties! We are all approaching middle age!

We have been so blessed to have them  
as our dentists and have recommended them  
to many of our friends and family.

They are always available when  
we have had dental emergencies. We love  
the warm and caring atmosphere of their  
office and staff. They have given us  
exceptional care and hopefully we will  
continue to have beautiful smiles  
into our later years!
